Dear Jim,

Congratulations on an outstanding year. Your exemplary performance during the past year as a Power Agent is proof that you are truly among the top real estate professionals in your area. In addition, we are proud that you have done so well in helping so many families in your area get the best real estate services possible.

On a personal note Jim I'd like to acknowledge your determination, integrity, persistence and commitment to excellence both in your real estate dealings and your personal life. Many agents set goals, make promises and plan success but few actually hit their goals, keep their promises and achieve success. You have done all three. I sincerely believe that you are an asset to the real estate profession, your company and your community because you have given what we are all truly seeking; a job well done with integrity and compassion.

I'm sure you'll continue to be a positive example for the agents around you and the real estate community at large. There's no doubt you'll keep up the fantastic work and continue giving your clients and customers the very best in superior, professional real estate services.

Powerfully Yours,

Darryl Davis
