Hey Jim...I wanted to thank you for selling my house it was right on time. I would recommend you to anyone! Good job especially under the challenging circumstances. The fact that you got the job done in less than 30 days after I had been on the market with another agent for over 6 months was truly remarkable. I sincerely appreciated you taking the time to talk me through the process and the support/advice as decisions had to be made. I think that really made the difference.

Thanks - Tony
